GRADUATE STUDIES MAKE A DIFFERENCE

FROM GRADUATE CERTIFICATES TO MASTER'S PROGRAMS TO DOCTORATES, completing a graduate program elevates your skill set so you can be a valuable contributor wherever you go.

Pursuing graduate studies allows you to make connections with industry-leading professionals who share the same passions and interests and who can provide mentorship and guidance.

Positions today are increasingly requiring more than an undergraduate degree. Gaining post-graduate expertise will give you greater employability and flexibility.

Whether you are just starting your career, growing in an established role or pivoting to a new direction, a graduate credential adds valuable knowledge and increases momentum towards your goals.

Triffo Hall, home of the Faculty of Graduate & Postdoctoral Studies (GPS) and the Graduate Students' Association (GSA).

“

Graduate studies at the U of A has allowed me to be part of a learning environment where knowledge is shared through discussion and mutual support. I have found strong mentorship, meaningful collaboration and opportunities to work on projects connected to real community issues alongside people who are committed to creating change.”

MULTIPLE CAMPUSES, ONE UNIVERSITY

The U of A is made up of multiple campuses, all offering unique locations, program types and student experiences.

Take a virtual tour of our campuses at uab.ca/virtual

Guided, on-campus tours can be booked at uab.ca/visit

NORTH CAMPUS

Edmonton, Alberta | 40,800+ Students

North Campus is our largest, primary teaching campus and where the majority of graduate programs and research take place. This “city within a city” contains 150 buildings and occupies over 50 city blocks in the heart of Edmonton.

Steeped in more than 115 years of history, North Campus is home to some of the most advanced research, technology and learning facilities in the world. Being just steps away from Edmonton's lush river valley makes us a campus of contrasts — and one of Canada's most dynamic and inspiring places to learn!

ONLINE COMMUNITY

Join other learners from around the world with our **online graduate programs**. Specifically designed for maximum flexibility, our online programs offer synchronous or asynchronous formats, part-time or full-time study and fully-online or hybrid options — perfectly suited to fit busy schedules. Our online community allows students to access world-class education with delivery options impossible to offer through an on-campus setting.

LIVE WHERE YOU LEARN

Four residence options on North Campus are available to graduate students. Our specific Graduate Residence has tailored support for students, including thesis defence preparation sessions and an on-site faculty member. Units are furnished and include studio, one-bedroom and shared options. uab.ca/gradres

Nearby housing options are also available for graduate students who desire more living independence.

AUGUSTANA CAMPUS

Camrose, Alberta | 900+ Students

This U of A campus is located in the small but vibrant city of Camrose. Augustana is one campus option to pursue a master of science in occupational therapy, physical therapy or speech-language pathology. Studying here offers unique opportunities reflective of local expertise and community partnerships at an easy-to-navigate campus with strong social connections.

CAMPUS SAINT-JEAN

Edmonton, Alberta | 1,090+ Students

Si vous pouvez lire ceci, votre place est au CSJ. As the only French-language campus in Alberta, Campus Saint-Jean (located in Edmonton's francophone neighbourhood) puts the French language at the forefront.

Discover Canada's Fifth Largest City

EDMONTON, ALBERTA is home to more than 1.6 million people. Our young and vibrant city is known for 325 days of sunshine each year, as well as over 60 annual festivals ranging from live theatre to sports to cultural events. exploreedmonton.com

Here are some of the things close to campus that our students love:

ICE DISTRICT AND ROGERS PLACE
Home of our NHL hockey team and Edmonton's biggest events.

WEST EDMONTON MALL
North America's largest shopping mall with more than 800 stores to shop!

WHYTE AVENUE
One of Edmonton's most vibrant districts is just a short bus ride away.

Cost of Living Comparison

EDMONTON HAS THE LOWEST COST OF LIVING of any major Canadian city, as well as one of the lowest monthly rental rates.

	VANCOUVER	TORONTO	EDMONTON
Annual Cost of Living	45% higher than national average	30% higher than national average	9% higher than national average
Metro Population	3.1 million	7.1 million	1.6 million
Average Rent: 1 Bedroom	\$2,672	\$2,482	\$1,309
Average Rent: 2 Bedroom	\$2,800	\$2,700	\$1,598
Sales Tax	12%	13%	5%
Average Yearly Income by Province	British Columbia: \$66,232	Ontario: \$57,000	Alberta: \$76,220
Average Cost to Buy a House by Province	British Columbia: \$982,800	Ontario: \$795,300	Alberta: \$513,162

These benefits, plus the availability of quality healthcare, affordable housing, low traffic commutes and less pollution make Edmonton a great place for you to build your future.

STUDYING IN ALBERTA, CANADA

Canada is the second largest country in the world – home to stunning natural landscapes and friendly, welcoming people. Canada is ranked in the top 15 safest countries in the world by the Global Peace Index.

Why Study in Canada?

With more than \$19 billion in annual research and development funding, Canadian universities are conducting research at some of the highest levels in the world. This commitment to quality research contributes to Canada being viewed as a **top-four destination in the world for quality of education**.

Breathtaking Beauty

Alberta is also home to **six UNESCO World Heritage Sites**, including the world-famous Canadian Rocky Mountain Parks (Banff National Park and Jasper National Park). Edmonton is within three hours of the Rocky Mountains, making them a weekend getaway that will take your breath away.

TOP FACILITIES & WORLD-CLASS RESEARCH

400+ RESEARCH LABS,
90 CENTRES & INSTITUTES

2nd LARGEST RESEARCH
LIBRARY IN CANADA

\$600M ANNUAL
RESEARCH FUNDING

Postdoctoral scholar Sampurna and master's student Alex conducting research in the Natural Resources Engineering Facility.

THE UNIVERSITY OF ALBERTA IS A WORLD-RENOWNED RESEARCH INSTITUTION where ideas transform into remarkable realities. U of A expertise is sought out on today's most pressing local and global issues: from accelerating solutions in energy, climate transition and food sustainability to forging new paths in artificial intelligence, health and Indigenous leadership. United with partners in industry, academia and government, we are looking to the future and leading with purpose.

ualberta.ca/research

Renowned Facilities

The U of A is home to some of the most advanced facilities in the world, including the Canadian Ice Core Lab (which is studying over 10,000 years of climate change) and our artificial intelligence labs that are creating smart bionic limbs.

Amazing Mentors

Learn from the best and work alongside them in their research labs or participate in their field studies. Our award-winning professors include scholars such as Richard Sutton, who was awarded the 2024 Association for Computing Machinery A.M. Turing Award, often referred to as the "Nobel Prize in computing".

Entrepreneurship & Innovation

Bring your passion projects and research to life through one of our many collaborative spaces and institutes offering support through mentorship, education and commercialization:

- eHUB
- Elko Engineering Garage
- Engineering Incubator
- Northern Alberta Clinical Trials & Research Centre (NATRC)
- Peter Lougheed School of Leadership
- Student Innovation Centre
- ThresholdImpact Venture Mentoring Service

ISMART INSTITUTE

Access core facilities and advanced research equipment, all with the goal of improving human life.

NANOFAB CENTRE

Open-access micro- and nanoscale fabrication facility.

PLANT GROWTH FACILITY

Research in crop and plant science takes place year-round in this greenhouse, located in the Agriculture-Forestry Building.

DID YOU KNOW?

Some graduate programs will accept students who have an educational background in a different discipline, meaning you don't need to have a bachelor's degree in the same field as your potential graduate program.

Graduate students Ahmed, Caroline, Ayomide and Alex in class on North Campus.

FLEXIBLE
PATHWAYS TO
ACADEMIC &
CAREER SUCCESS

AT THE UNIVERSITY OF ALBERTA, WE RECOGNIZE THAT EVERY LEARNER'S JOURNEY IS UNIQUE. That's why our graduate programs are designed to offer flexibility, accessibility and relevance. Through a range of program types and delivery methods, we support diverse learning styles, schedules and professional goals.

Choose from more than 500 programs in 370+ research areas. Begin exploring your options at uab.ca/gradprogs and on pages 16-25, using this legend:

Post-Master's Certificate

PROGRAM TYPE

CERTIFICATES

A graduate certificate is a credential awarded to students who complete a specific set of four graduate-level courses in a concentrated professional area. In some cases, credits earned through a graduate certificate may be laddered or stacked into a master's degree.

These programs can be completed in less than a year, are available in-person or online (with part-time options) and have multiple intakes each year.

uab.ca/gradcerts

COURSE-BASED MASTER'S

Course-based master's degrees are increasingly valued in today's global economy. These programs typically include more courses than thesis-based programs, providing expansive learning that will be utilized in completing the degree's required capstone research project.

uab.ca/cbmasters

THESIS-BASED MASTER'S

Thesis programs empower students to conduct methodical, systematic, theory-based and collaborative research alongside esteemed academics and in cutting-edge facilities. Program requirements include defining a research problem, conducting research and writing and defending a thesis.

uab.ca/tbmasters

DOCTORAL STUDIES

Our doctoral programs are a pathway for students to continue their studies after completing a master's program, diving deeper into a research subject. A doctoral degree opens the door to a career in academia, research and government policy-making. It identifies individuals as experts in their field of study, positioning them as authorities to drive advancement across their industry.

uab.ca/doctoral

Bear Spirit in Main Quad at the U of A, carved by Stewart Steinbauer.

DELIVERY METHOD

ON-CAMPUS PROGRAMS

A traditional learning environment with face-to-face time with peers and instructors at a defined time and place. This type of learning environment involves more social interaction and collaboration.

uab.ca/ocgrad

ONLINE PROGRAMS

Designed for working professionals and those balancing multiple commitments, our fully online programs offer a flexible, high-quality learning experience without the need to relocate or pause your career. Engage with course material on your own schedule, connect with instructors and peers virtually and gain the same rigorous education as on-campus students — from wherever you are.

uab.ca/onlgrad

The University of Alberta continues to expand our offerings of online graduate programs with NEW programs being introduced in 2026 and more on the way soon!

HYBRID PROGRAMS

A combination of on-campus and online learning, hybrid programs allow for more flexibility while still being connected to the physical university campus. Hybrid learning blends on-campus social collaboration with the convenience of online delivery.

ADMISSION REQUIREMENTS

There are different admission requirements depending on the program you are applying for, as well as if you are coming from a Canadian or international undergraduate background. uab.ca/gradadm

Graduate Certificate Programs

Applicants are normally required to have completed a four-year baccalaureate degree (or its equivalent) from an academic institution recognized by the U of A. Special consideration may be given for exceptional, relevant prior learning or tenured work experience.

Master’s Programs

Applicants are normally required to have completed a four-year baccalaureate degree (or its academic equivalent) from an academic institution recognized by the U of A. An admission GPA of 3.0 on most 4-point grading systems or B on most letter grading systems based on your most recent two years of full time study (or equivalent) is required.

Doctoral Programs

Applicants are normally required to have completed a master’s degree (or its academic equivalent) from an academic institution recognized by the U of A. An admission GPA of 3.0 on most 4-point grading systems or B on most letter grading systems based on your most recent two years of full-time study (or equivalent) is required.

Degrees from Outside Canada

Course content will be examined to establish equivalencies to a U of A degree. Minimum academic requirements by country can be found online. uab.ca/arcgrad

English Language Proficiency (ELP)

Applicants with qualifications in a degree outside Canada may need to demonstrate ELP. uab.ca/engprof

HOW TO MEET THE ELP REQUIREMENT	EXAMS	MINIMUM SCORE
Complete an ELP exam with the minimum required score. <i>Standardized test results must be issued directly from the testing office. Photocopies will not be accepted.</i> <i>Test scores must be valid and verifiable. Scores more than two years old will not be accepted.</i> <i>Test scores must include four sections: Reading, Writing, Listening and Speaking.</i>	TOEFL (Test of English as a Foreign Language)	Overall 4.5 (minimum 4.5 per band)* <i>*Tests taken before January 21, 2026: Total 90 (minimum 21 per section)</i>
	IELTS (Academic) (International English Language Testing System)	At least 6.5, with no band less than 6.0
	CAEL (Canadian Academic English Language assessment) – Either CAEL (paper) or CAEL CE (computer)	At least 70, with no band less than 60
	C1 Advanced (Cambridge)	Minimum score of 176, with at least 169 on each subscore
	C2 Proficiency (Cambridge)	
	PTE (Academic) (Pearson Test of English Academic)	At least 61, with no band less than 60
	Duolingo English Test	At least 120, with no subscore less than 100

Note: This is the minimum standard for admission. Some departments may have additional or higher admission qualifications. Application fees are non-refundable.

HOW TO APPLY →

Applying to the University of Alberta is as simple as following five steps.

Access the Graduate Admissions Portal (GAP) and review answers to Frequently Asked Questions about the application process. uab.ca/gradapply

Finding a Supervisor (Thesis Programs)

Some programs require confirmation from a faculty member to serve as your graduate supervisor before your application will be assessed (while others allow for a supervisor to be chosen after applying). Please check program requirements for further details. uab.ca/supervisor

- 1
- START EARLY
- Application deadlines vary depending on your program of interest. Some departments accept applications year-round, while others only admit new students once a year. uab.ca/graddates
 - Documentation requirements and study permit processing times for international students can add time delays.
 - Funding decisions are often made six to nine months before the term starts.
- 2
- CHOOSE YOUR GRADUATE PROGRAM
- We have over 500 programs to choose from. uab.ca/gradprogs
- 3
- REVIEW REQUIREMENTS
- Admission requirements and application procedures, deadlines and entry dates vary by program. Visit the website to review program-specific information and contact the department if you have questions.
- 4
- PREPARE APPLICATION DOCUMENTS
- Some programs require all supporting documentation to be provided prior to the application deadline. Preparing required documents ahead of time can help streamline the application process.
- 5
- APPLY ONLINE
- Our online application takes approximately 30 minutes to complete. A \$150 CAD non-refundable application fee is required.
- After you apply, check your GAP regularly for additional required documents and updates to your application status.

FUNDING YOUR FUTURE

Students walking between classes on North Campus.

An investment in graduate education is an investment in your future, and the University of Alberta has many options to assist you.

Program-Based Tuition

At the U of A, tuition differs between program type and Canadian and international students. For the most accurate program cost, visit uab.ca/gradfees

Scholarships & Awards

Supplement your studies by applying for various graduate student awards, scholarships and prizes. Application deadlines vary. uab.ca/sagrad

Financial Aid

Financial aid is available for students who need additional financial support. This may include graduate bursaries, emergency funding, student loans and tuition payment options. Additional support may be available through the respective faculty/department and the Graduate Students' Association (GSA). uab.ca/fingrad

Graduate Teaching and Research Assistantships

Departments offer **millions of dollars in assistantships** each year, which provide students with practical teaching and research experience in a classroom or lab while offsetting the costs of education.

Assistantships are commonly offered over the eight-month academic year between September and April. However, some continue throughout the summer. Part-time assistantships are also available.

Most departments suggest students apply by March 1 to be considered for assistantships beginning in September. To learn more, students should contact their department directly. uab.ca/tara

How to Apply for Grant Funding

Looking to begin your search for grant funding?
Explore the Funding Opportunities Database for funding opportunities for researchers. Check back often as new opportunities are continually added.
uab.ca/grants

Minimum Guaranteed Funding for PhD Students

Doctoral students receive minimum guaranteed funding of \$100,000 CAD over four years and no less than \$25,000 CAD in their first year. Minimum guaranteed funding can be made up of any combination of funds from a variety of sources and will be outlined in your offer letter.
uab.ca/mgfpd

\$58.5 MILLION
DISTRIBUTED IN **GRADUATE STUDENT FUNDING** IN 2024-25

\$35 MILLION IN
SCHOLARSHIPS ADMINISTERED
BY THE **FACULTY OF GRADUATE & POSTDOCTORAL STUDIES (GPS)**

Funding Information for International Students

The U of A strives to provide the best possible funding opportunities for our international students. As an initial step, applicants should consult the department in which they are seeking admission regarding potential assistantship appointments. uab.ca/fundint

STUDENT SUPPORTS

Faculty of Graduate & Postdoctoral Studies (GPS)

GPS supports graduate students and postdoctoral scholars through the entirety of their time at the University of Alberta. Some of their many services include:

- Graduate advising
- Graduate student social events
- Professional development training workshops
- Research showcase events
- The Graduate Student Internship Program and the Graduate Teaching and Learning Program
- Financial scholarships and awards

uab.ca/gps

Health & Wellness Services

We understand your health and happiness are a priority. If you choose to study here, you will have access to a variety of services and resources for graduate students:

- On-campus University Health Centre
- Counselling and Clinical Services
- First Peoples' House
- The Landing

uab.ca/health

Chat with Our Graduate Students

Have questions about what it's like to study at the U of A? You can message a current graduate student to find out more, directly from the source. uab.ca/gradchat

Graduate students and postdoctoral scholars at the U of A include:

41% INTERNATIONAL STUDENTS

20% PARENTS

50% MARRIED OR LIVING WITH PARTNERS

International Student & Visitor Services (ISVS)

Access services, events and programs that help international students accomplish their academic and personal goals. ISVS can also provide guidance on the process and eligibility for obtaining a Post-Graduation Work Permit, as well as possible pathways to apply for permanent residency in Canada. uab.ca/iss

Study Permit Support

The U of A has partnered with Borderpass to support students with their study permit application. For no additional cost, your application will be reviewed by a Canadian Immigration Lawyer before being submitted, giving you the best possible chance to obtain your study permit. uab.ca/borderpass

Child Care Assistance

The Graduate Students' Association (GSA) offers support for graduate student parents in the form of a GSA Child Care Grant (based on income), private feeding and care spaces and select child care services. uab.ca/parent-friendly

Graduate students Alex, Zoe and Ahmed walking outside Triffo Hall, home of the Faculty of Graduate & Postdoctoral Studies (GPS).

PROFESSIONAL DEVELOPMENT

Professional Development Requirement

Gain additional skills and career-readiness, built right into your graduate program, with the professional development requirement. Students will apply their talents, pursue their interests, learn professional skills and make connections that help them excel in their chosen field. uab.ca/pdreq

Career Centre

The Career Centre empowers U of A students and alumni to develop the skills, knowledge, experiences and connections they need to confidently manage their careers. uab.ca/cc

Graduate Student Internship Program

This program provides flexible, paid work experience to U of A graduate students through a variety of interdisciplinary work placements available throughout the year. uab.ca/grintern

Graduate Teaching & Learning Program (GTLP)

This multi-tier program is designed to help participants excel in their role as a teaching assistant and beyond. Students will learn first-hand from dedicated, inspiring and award-winning instructors. The GTLP is open to all U of A graduate students. uab.ca/gtl

Community Engagement Foundations

This course is tailored to graduate students eager to make a tangible difference in their community. Through active collaboration between participants and community members, students will gain strategies to forge authentic connections and to create meaningful impacts in their communities both on and off campus. uab.ca/cef

GET INVOLVED

Student Clubs & Organizations

Share your passions and build community by joining one of our 450+ student clubs, including more than 50 organizations specific to graduate students. uab.ca/clubs

Recreation & Sports

Use of our extensive facilities is included in your fees, including access to:

- Hanson Fitness & Lifestyle Centre
- Wilson Climbing Centre
- Clare Drake Arena
- Aquatic Centre

There are also a wide range of recreational programs and fitness classes that students can sign up to attend.

uab.ca/recreation

Varsity Athletics

The Golden Bears and Pandas are among Canada's premier intercollegiate programs. Bring your school spirit to cheer on the home team. Students get in FREE to all regular season conference games. uab.ca/athletics

- 12 sports for elite athletes
- 100+ national championship titles

Graduate students, Portia and Connor, working out in the Hanson Fitness & Lifestyle Centre, the largest fitness centre on North Campus.
