Re: **2026-2027 Canada Graduate Research Scholarship – Doctoral Competition**

The Faculty of Graduate and Postdoctoral Studies (GPS) is pleased to announce the details of the 2026-2027 Canada Graduate Research Scholarship (CGRS D) competition at the University of Alberta (U of A). The scholarship and fellowship programs administered by the three federal research funding agencies – the Canadian Institutes of Health Research (CIHR), the Natural Sciences and Engineering Research Council (NSERC), and the Social Sciences and Humanities Research Council (SSHRC) – are streamlined into the harmonized talent program called the Canada Research Training Awards Suite (CRTAS).

The Canada Graduate Research Scholarship – Doctoral (CGRS D) program (\$40,000/year for 36 months) recognizes and supports the next generation of outstanding innovators, knowledge workers, creative thinkers and researchers. By providing support for a high-quality research training experience to awardees, the program strives to foster impacts within and beyond the research environment.

As the agency portals have officially opened to accept applications, notification is hereby provided of the institutional application and nomination process. **Students must apply through the appropriate agency's online system in accordance with their instructions.** To assist in the promotion of this doctoral scholarship, we request departments disseminate information about this year's national competition to their students and potential applicants.

After the GPS Graduate Scholarship Committee's (GSC) review of all applications, reviewers recommend the best applications, regardless of their status or proposed location of tenure. Institutions forward the best applications to the national level even if they are proposing to hold their award at a different institution. The calculated [institutional quota](#) is a function of the average number of doctoral scholarships awarded to students who applied through the institution over the past three years. When calculating quotas for future years, all awards are counted as successful applications for the institution that forwarded the application to CIHR/NSERC/SSHRC regardless of where the award is taken up.

2026/27 recipients of the U of A Graduate Entrance Scholarship and the U of A Graduate Recruitment Scholarship are encouraged to apply for Tri-Agency funding if they are eligible.

Eligibility

Students eligible to submit their application through the U of A are to review the CGRS D program [website](#) for complete eligibility criteria and requirements. It is the student's responsibility to read all eligibility criteria and instructions on the [CGRS D website](#) and [GPS's website](#), and be familiar with the application process before applying.

Applications that do not meet all of the eligibility criteria or do not submit by GPS's application deadline of September 16, 2026 will be deemed ineligible.

Subject matter eligibility (research area): The onus is on the applicant to carefully select the agency that best aligns with their research subject matter to ensure their application will be reviewed by experts in disciplines closest to their field(s) of study. Refer to [Selecting the Appropriate Agency](#) of the CGRS D Application Procedures.

Application Process and Timelines

Applications submitted in Fall 2026 term are for awards to start May or September 2027, or January 2028. All applicants registered in a degree program at the U of A at any time during the calendar year of application (January 1, 2026 – December 31, 2026) must apply through the U of A (with a quota), even if they intend to pursue their doctoral studies at an institution other than the U of A.

For more information, refer to the [Where to submit an application](#) table of the [CGRS D program](#) application procedure. Failure to submit an application through the correct channel may result in an application being removed from the competition.

September 4, 2026: SSHRC Applicants Only: students who studied part-time or interrupted their doctoral studies must contact GPS by September 4, 2026 to request an 'Official letter to confirm part-time study and/or leave of absence'. This letter is to be uploaded with the PDF of the transcripts.

September 16, 2026, 11:59 pm (MST): Institutional (GPS) deadline for students to submit their complete application in the appropriate agency portal/online system. Referee assessments and transcripts are described in each agency's application instructions. Refer to the chart below for the competition timeline and deadlines. **Late submissions of applications will not be accepted, and changes cannot be made after September 16, 2026 11:59 pm (MST).**

Students: This is a direct application whereby students apply through the appropriate agency's website in accordance with their instructions. GPS accesses U of A applications from each agency portal for university review and adjudication:

CIHR: [ResearchNET](#) and [instructions](#)

NSERC: [Online system](#) and [instructions](#)

SSHRC: [Registration and login](#) and [instructions](#)

- It is the student's responsibility to read all criteria and instructions on the [CGRS D website](#), as well as [GPS's website](#) for the complete details on application instructions and transcript requirements for applying through the U of A.

Departments: There is no nomination, list, or ranking required by the department. Departments will be notified of students successfully forwarded to the national competition (via GSMS email notification), and of any winners approximately in April 2027.

Note that GPS will not provide copies of students' applications or reference letters to departments. Should departments want a copy of the student's application for advisement purposes, they may request this directly from the student. As referees are required to submit a confidential online form, letters are not available to students.

Students and departments are to take note of the following:

- Institutions are permitted to recommend an unlimited number of self-identified Indigenous applicants above their application quota. Indigenous applicants must agree to their personal information being used for this purpose by making the appropriate selection in the application form.
- Note applicants are not automatically forwarded to the national level; they will be reviewed and recommended by GPS's GSC among the full pool of applicants.
- *"Indigenous peoples" is a collective name for the original peoples of North America and their descendants. "Aboriginal peoples" is often used as a synonym. For the purposes of these programs, NSERC uses the Canadian Constitution act, 1982 definition as including the Indian, Inuit and Métis peoples of Canada.*

Transcripts

Students are to order transcripts as early as possible. **Once an application is submitted in the appropriate agency portal by the university deadline, applications will not be returned to students due to missing, incomplete, or ineligible transcripts.**

Students are responsible for obtaining transcripts for all institutions attended and attaching them to their application in each CIHR/NSERC/SSHRC online application portal. Students are to follow the *Transcripts* sections of each agency's online portal instructions, and the U of A's transcript policy and requirements posted on [GPS's website](#) (under Application Procedures). These instructions are crucial as non-compliance with transcript-related guidelines is the primary reason for the rejection of applications.

We wish all students and departments success in the upcoming competition!

Sincerely,

Award Services
