UNIVERSITY OF ALBERTA

Safeguarding Research Office

Research Security Requirements At-a-Glance Tool

This document provides an at-a-glance look at the research security requirements applicable to various federal funding opportunities. Additional detail about required actions for each opportunity is also provided. The focus is on Tri-Agency and Canada Foundation for Innovation funding opportunities. To learn more about the unique research security requirements of Mitacs, please review their research security page or contact safegrd@ualberta.ca.

This tool is focused on Government of Canada requirements. For information on provincial or international research security requirements, please contact safegrd@ualberta.ca or request support on our portal.

This is a **University of Alberta institutional document** - next steps and actions may differ by institutional requirements and supports. If you have a question for the U of A Safeguarding Research Office, you can contact safegrd@ualberta.ca.

Glossary

STRAC - Policy on Sensitive Technology Research and Affiliations of Concern
NSGRP - National Security Guidelines for Research Partnerships
PSPO - Private Sector Partner Organization

How to Use This Tool
This tool consists of two major sections.

See the **At-a-Glance Table** just below for a quick overview of applicable research security requirements by funding stream (i.e. if the National Security Guidelines for Research Partnerships or the Sensitive Technology Research and Affiliations of Concern Policy apply to the stream). Each funding opportunity is also linked to its online granting agency details.

Safeguarding Research Office

Jump to the **Summary of Action Required by Funding Opportunity** section by clicking Next Steps in the respective row in the At-a-Glance table. The applicable section will specify the necessary research security process for that particular grant stream. There are Back to Top links throughout the document to allow for easier navigation.

Please note that it is very important to read the Definitions and Action categories in the relevant section in order to ensure you understand the application of the policy in each case and take the necessary actions.

Don't see your funding opportunity here? This document doesn't cover all special calls or international opportunities but the Safeguarding Research Office can still support your research security requirements! Please reach out to safegrd@ualberta.ca to receive a briefing - we're here to help!

SUMMARY OF ACTIONS REQUIRED BY FUNDING OPPORTUNITY

[Back to Top]

Alliance Grants (NSERC)		
STRAC	✅ Yes, the STRAC Policy applies to Alliance Grants. Action required: ● Consult the Sensitive Technology Research Areas (STRA) list to determine if your project aims to advance a STRA.	
	If **yes**: All those with a named role are required to fill out an Attestation Form. As part of the attestation process, all those with a named role must confirm they have no active affiliation with, and are not in receipt of funding or in-kind support, from any of the institutions on the Named Research Organizations list.	If **no**: No further action required under STRAC Policy.
NSGRP	✅Yes, NSGRP applies to Alliance Grants. Do you have one or more partner(s) in the private sector and/or industry association?	
	If **yes**: Complete a Risk Assessment Form as an integral part of your application.	If **no**: No further action required under the Guidelines.
Definitions	For the purposes of STRAC implementation, NSERC categorizes **named roles** as: Applicant, Co-applicant(s), Collaborator(s). For the purposes of NSGRP implementation, NSERC categorizes **partner** as: private sector partner organization (PSPO) and includes industrial associations. Partnering in this case also includes cases in which the PSPO participates alongside other partner organizations from the public and/or not-for-profit sectors - if the	

	project lists a PSPO among its partners, a Risk Assessment Form will be required as an integral part of the funding application.
Action	- If your project aims to advance a STRA: Complete the Attestation Form process. - If you have one or more partner(s) in the private sector and/or industry association: Complete the Risk Assessment Form process. - Where a Risk Assessment Form OR Attestation Form is required: The applicant must complete the three research security training modules (these usually take approximately two hours in total) created by the Government of Canada. Available on Canvas, register here. This training is an **institutional condition of application** at the U of A. - Consult with the Safeguarding Research Office as soon as possible, even if your research proposal is only in the draft stage. You can schedule an in-person or virtual consultation here or by contacting safegrd@ualberta.ca.

[Back to Top]

Alliance International (NSERC)		
STRAC	✅ Yes, the STRAC Policy applies to Alliance International. Action required: Consult the Sensitive Technology Research Areas (STRA) list to determine if your project aims to advance a STRA.	
	If **yes**: All those with a named role are required to fill out an Attestation Form. As part of the attestation process, all those with a named role must confirm they have no active affiliation with, and are not in receipt of funding or in-kind support, from any of the	If **no**: No further action required under STRAC Policy.

	institutions on the [Named Research Organizations list](#).
NSGRP	🛑 No, [NSGRP](#) does not apply to <u>Alliance International Grants</u>. No further action required under the Guidelines.

John R. Evans Leaders Fund (JELF) (CFI)		
STRAC	✅ Yes, the STRAC Policy applies to John R. Evans Leaders Fund (JELF). Action required: ● Consult the Sensitive Technology Research Areas (STRA) list to determine if your project aims to advance a STRA.	
	If **yes**: All those with a named role are required to fill out an Attestation Form. As part of the attestation process, all those with a named role must confirm they have no active affiliation with, and are not in receipt of funding or in-kind support, from any of the institutions on the Named Research Organizations list.	If **no**: No further action required under STRAC Policy.
NSGRP	✅Yes, NSGRP applies to John R. Evans Leaders Fund (JELF). Do you have one or more partner(s) in the private sector and/or industry association?	
	If **yes**: Determine if the project involves a private-sector partner that: ● Has an active role in the research activities described in the proposal (e.g., sharing of intellectual property, providing expertise, actively participating in research activities, contributing financially to the research activities); or ● Houses part or all of the research infrastructure; or ● Contributes more than $500,000 to the	If **no**: No further action required under the Guidelines.

	infrastructure through a cash or in-kind contribution to any single item. For any proposal involving one or more private-sector partners that meet any of the above criteria, complete a Risk Assessment Form as an integral part of your application. Additionally, if you determine you need to submit a Risk Assessment Form, you must also submit a Private-sector Partner Identification Form for every partner that meets the criteria.	
Definitions	For the purposes of STRAC implementation, CFI categorizes **named roles** as: Project/Team Leader, Team Member(s).
Action	● If your project aims to advance a STRA: Complete the CFI-specific Attestation Form process. ● If you have one or more partner(s) in the private sector and/or industry association: Complete the Risk Assessment Form process. If you determine that you need a Risk Assessment Form, under CFI you must also submit a Private-sector Partner Identification Form for every partner that meets the criteria. ● Where a Risk Assessment Form OR Attestation Form is required: The applicant must complete the three research security training modules (these usually take approximately two hours in total) created by the Government of Canada. Available on Canvas, register here. This training is an **institutional condition of application** at the U of A. ● Consult with the Safeguarding Research Office as soon as possible, even if your proposal is only in the draft stage. You can schedule an in-person or virtual consultation here or by contacting safegrd@ualberta.ca.
